

Quality Assurance Engineer

Paulina Sowa

I am an ambitious QA Engineer gaining an experience as a freelancer in manual software testing. Always excited for new challenges I multitask on a daily basis thanks to my highly developed organisation skills. During my practice in beta tests of apps and games I mastered critical thinking, problem solving and attention to detail when it came to finding defects while executing e.g. exploratory or regression testing. Whenever I had an opportunity to work with a group I was a flexible and helpful team member always willing to share my thoughts and suggestions in both functional problems and usability or user-experience issues.

Projects

1. **So Yummi Web App**..... [TestRail, Trello, Jira, Swagger]

- Test cases, functional tests, UI/UX tests, API Tests, bug reports, validation and verification, static review.

2. **Revolut Mobile App**..... [uTest Platform forms]

- Beta tests: executing test cases, functional tests, UX/UI tests, regression tests, bug reproductions, bug reports.

3. **Palia Game**..... [JIRA-like Palia website forms]

- Game testing: exploratory tests, functional tests, regression tests, UI/UX tests, bug reports.

Tech skills

- TestRail
- Jira
- Trello
- JSON
- HTML, CSS
- API testing
- Postman
- SQL
- DBeaver
- GIT
- Validation and verification tests
- Test plans, test cases
- Bug reports, test reports
- Black and White Box Testing
- Mobile testing
- Selenium WebDriver - in progress
- JavaScript - in progress

Certificates

- 2023 - ISTQB - in progress
- 2023 - Quality Assurance Engineer

Soft skills

- Scrum, Agile
- Teamwork
- Communication
- Critical thinking
- Problem solving
- Organisation skills

Languages

- Polish - native
- English - C1
- Spanish - A1

Interests

- Football
- Gym
- Traveling
- Cooking
